STAT

Re: USIB Volume in Records Center.

There are 34 cubic feet of USIB records in the Agency Archives collection.

These include: Action Documents, Agendas, Minutes, Documents, and USIB Memorandums.

These come to the Archives from  in the Executive Registry.

STAT

There are sure to be some USIB documents in the Records Center with retired files from DCI, DDI, and Security Offices but we have no way of estimating where or how much this might possible be. We think that volume is very small.
